

Creating A Board That's On Board

Board meetings are not just about information, but also “transformation.” Organizations will rise or fall as a direct result of a functional or dysfunctional Board.

This seminar is focuses primarily on some practical tips and tools, rather than the latest research that can bring about “transformational change,” in Boards. Government agencies, Foundations, and individual donors and other potential supporters and funders want information concerning Boards. What they discover might make the difference between receiving their support and or funds, or not.

Topics we will cover will include...

1. What A Healthy Board Looks Like.
2. Board Roles And Responsibilities
 - a. Fiduciary
 - b. Liabilities
3. Strategic Planning
4. How To Diagnose Problems Rather Than Focus On Symptoms.
5. How To Evaluate The Board Performance.
6. How To Ensure Full Participation Of Board Members.

Don't miss this magnificent opportunity to develop or restore your Board.
